MEMORANDUM FOR:

File Copy

FROM: NIO/SP

1. This responds to your memorandum dated 7 April 1981, subject "National Intelligence Topics."

2. It is assumed that the second item under "Soviet Military Policy" on the first page of the National Intelligence Topics of Current Interest refers to strategic nuclear forces. If so it is suggested that the wording be revised to state

"What is the likelihood of a Soviet strategic breakout or of a technological breakthrough that would give the Soviets a clear superiority in strategic nuclear capabilities?"
